THE TOWN OF KLAMATH.

ON THE KLAMATH RIVER—The only direct and the cheapest route to the Klamath and Salmon River Mines—has been surveyed and laid out, being situated about three miles from the entrance of the river into the Pacific, in latitude 41 deg. 33 min. North, about 250 miles from San Francisco, and is destined speedily to become one of the most flourishing towns in California, as premised from the following facts, to wit: The Klamath River affords a safe and excellent Harbor, and at all times capable of ingress or egress to the heaviest shipping; and is navigable for steamers from the Town to the Mines, distant from 50 to 75 miles. The river abounds with the finest salmon, the valleys with deer and elk, the forests with a noble growth of pine and red wood, fit for piles, spars, or lumber. While the Mines on the Klamath and its numerous tributaries, among which are the Salmon, Shasta and Ross rivers, are, it is confidently believed, paying better than any other mines in California, as during the past season they have averaged not less than one ounce of gold per day to a man, while multitudes of the more industrious class have made their two and three ounces a day. The climate is one of the finest and most healthy that California affords. Therefore, to the Merchant, the Miner, Mechanic, and Capitalist, it may be truly said: here is presented a field for the investment of labor and capital not surpassed by any other in California. Vessels are now running from San Francisco to the River, and a line of steamers will soon be put on the route; also a steamboat to ply between Klamath and the Mines.

For further particulars inquire of SHULTZ & PALMER, foot of Jackson street, or JOHN GRAY, Jr., Central Wharf, opposite Whitchall, where maps of the Town can be seen.

Parties are Necessary.

The existence of political parties seems to be a necessity of our condition. Since the formation of our national compact, there has scarcely been a period when the country has not been divided politically between two great parties, each struggling for ascendancy: each watching the other's movements and bringing its professed principles to the test of a rigid scrutiny, comparing them with the deductions of reason, or contrasting them with the acts of those professing them. But one considerable period of this whole history has been free from strong party feeling. From the first Presidency to the last, except that of Monroe, this warfare of argument, this contest of effort, this emulation for precedence and power, has been spirited and often violent. Yet, we are not of those who think the country has been injured at all by these excitements. On the contrary, they have been among the most active elements in our national progress and success. They have been to the nation what heathful exercise is to the individual; they have secured its health, ripened thought, sharpened apprehension, kept alive and active the spirit and motive power, been a measure of safety by acting as a continual police in which each half the people were strict watches upon the other.

We do not deny that parties sometimes commit excesses. But this is only an excresence, not necessarily a part of party discipline. And after viewing all the apparent evil which extremes in party contests, party action and party feeling have produced, we would not willingly do away with it if at the expense of all the good which these same party contests have effected. There is probably no thinking man living who will say that the administration of Mr. Monroe has been as prolific in developing the name, fame, resources, and progress of our country, as that of almost any other President. Yet his administration is the only one unaccompanied with very strong political contests and feelings. At times there have been partial obliterations of the old parties, or merging of them in new ones started upon new issues, which have invariably died away again, leaving the people to revert to their old allegiance. Thus was it with the Anti-Masonic, the Temperance, the Conservative, the Tyler parties, &c. All have eventually settled back again into the two, and only two legitimate political parties. Even the Free Soil movement has had its day, so we believe has the more ultra but less dangerous Abolitionists, and like all their predecessors, are fast verging and being lost in the name of Whig or Democratic.

Apt illustrations of the necessity of an organization in this state might be drawn from her political history for the two years past. Here we have had no organization beyond this city, and for the last partial elections in Sacramento, the question of politics have scarcely entered into the contest. Any man who chose, offered his services, and frequently men were elected, who, totally unfit for the offices they aspire to, received votes because none better were presented, and for the reason that no particular body of men, feeling themselves responsible for the acts of whoever might be elected, took no particular interest in questioning his ability or his honesty. Thus we have seen in various positions a lamentable want of fitness, if not of honorable intention, on the part of those occupying them. It is scarcely necessary to say that if the lines of party had been strictly drawn, and the issues between the whig and democratic parties fully defined and defended, that such would not have been the case. Men suitable would have been selected and elected, and with a definite responsibility and accountability, would have faithfully performed the duties of their respective offices. Every body's business is nobody's, is a homely adage, but a true one, and as truthful when applied to the necessity of watching office holders and electing them, as to any thing else.

TRIAL OF DUANE.—The trial of Charles Duane, for an assault upon Mr. Amadee Fayol, with an intent to commit murder, was yesterday commenced before the District Court. The defence is conducted by Calhoun Benham, Esq., and the prosecution by G. K. Platt, the District Attorney. The court were occupied nearly all day in empanneling a Jury, and immediately after they were obtained, the court adjourned until this morning at 10 o'clock.

IMPORTATION OF SPECIE.—The steamer Panama brought up, yesterday, a large amount of specie, and consigned to the following persons:

Godeffroy, Sillem & Co	$14,036 12
Bolton, Barron & Co	30,000 00
Mathias Alsua	48,700 00
Henry Storsa	9,600 00
Total	$102,336 12

Business in the Recorder's Court.

Andrew Goodwin was arraigned on the charge of having assaulted Mrs. Jacobs, a few days since, within his own house. The complainant testified that she went to Goodwin's house merely to see his wife, who was slightly unwell: and that the prisoner, without any cause or provocation, abused her, beat her, and put her out of the house. Goodwin, when called on for his defence, stated that Mrs. Jacobs was comfortably tight, and had come to his house for the purpose of trying to persuade his wife to leave him. Farthermore, he stated that he never struck her, but merely put her out of the door.

During this examination, the complainant and prisoner were both talking at once, and creating so much disturbance as to make it impossible to understand what was going on. The Recorder commanded them to be silent, which they did not regard, and threatened to imprison them; but it was all unheeded. A special force of the police came to the rescue, and after great exertions succeeded in putting a stop to their claptraps. The statements of the parties were in direct contradiction, and as a matter of course, one of the parties has given a false statement of the affair. His Honor remarked, that as the evidence was about balanced, he could not decide, but would continue the case until additional testimony could be obtained.

Seth McDonald got drunk at a house on Long Wharf, borrowed some money from a man named Douglass, and had a dispute as to the amount. The result was, an exchange of blows and the smashing of a pitcher and a few tumblers. Seth was allowed to go upon the payment of $20, and promised the Recorder that he wouldn't be caught in the same fix for the next twenty years.

James Anderson, James Thompson, and *James Larkin,* three jolly American tars, who had just arrived in the country, got into difficulty with a lot of Kanakas on Clark's Point, and handled them severely. A person by the name of Murphy, attempted to interfere, and was served the same way for his trouble. They had nothing to say in defence, except getting drunk. The first named was fined $20, and the other two $40 each.

Two brothers named *Levy* were brought up on the charge of shaking a big Dutchman nearly out of his boots, and tearing his coat. The plaintiff, prisoners, and witnesses got so mixed up, that his Honor couldn't tell one from the other, and so continued the case until to-day.

Ramond Marini, for stealing some money belonging to a person named Francisco, was sent to a Justice of the Peace, the act having been committed out of the city limits.

AERIAL VOYAGE AROUND THE WORLD.—JOHN WISE, Æronaut, of Lancaster county, Pa., is the gentleman who asks an appropriation by our government of $200,000, to be expended in the city of Washington in constructing a balloon of such material as will contain hydrogen gas for months, of a diameter of 100 feet, and which is to have an elevating power of sixteen tons. With such a balloon he promises to make ascensions and pass to and remain over any point on the earth's surface, for almost any length of time. He will hover over the navy yard, arsenal, capitol, or President's house, so high as to be out of reach of shot or shell, and thence discharge destructive and explosive missiles, thus proving his ability to destroy any fleet or army with perfect ease.

He says, also, he will make an ascension from New York with one of Francis' Life Boats, as a car, suppled with provisions, and six or eight attendants, and will cross the Atlantic to Europe; and not only that, but will make a voyage around the globe. Thus the navigation of the air is to become useful to man.

SHADE TREES—Passing down Long Wharf, yesterday, we saw a beautiful, young and thrifty fir tree, standing before Perkins Depot, opposite the New World Hotel, which reminded us that in the many pretty yards of the city, scarcely an ornamental tree is to be found. It seems a little strange that among the many improvements going on, that the main article for beautifying grounds has been overlooked by our house-keepers: nothing adds more to the appearance of a cottage than evergreen, aside from the real comfort of its shade.

We learned, on enquiry, that the trees we speak of were brought from the mountains, near Nevada City, and that they were for sale. We are certain that were our "better half," in San Francisco, we should find no rest until our domicil could show a "green spot of earth, and flower of the field."

☞ The *Herald* of yesterday morning publishes an extract from a letter to the *Placer Times*, dated at San Jose, in which it is stated that Gen. WINCHESTER, who has just issued a prospectus for a new Democratic paper, still retains an interest in the *Pacific News*. It is perhaps sufficient answer to this to say, that it is wholly and unqualifiedly *false*.

The object of the re-publication of this idle gossip in the columns of the *Herald*, is evident. The gentleman alluded has issued a prospectus and made proposals to the Democratic Committee, for the publication of a Locofoco paper, and the Herald is on "the same lay," having offered to sell out its "independent" notions to the "unterrified" for $8000. Of course the re-publication of the falsehood alluded to, is designed only to "lead off" the General.

A FIRE.—A fire was discovered yesterday about 12 o'clock, in some new buildings at the foot of Clay street, and was soon extinguished by those who first discovered it. The different fire companies turned out with great promptness, but fortunately their services were not needed. We were unable to learn the cause of the fire, but it probably originated from the sparks arising from the steamboats in the vicinity.

From last accounts we hear nothing whatever of the steamship Atlantic. She has been out some 45 days, and although there was still a hope that she had gone to the Azores, we fear that she has struck an iceberg, and met the fate of the President.

Horrid and Wholesale Murder on the Chagres River—Six Men and two Women Killed!

The Panama *Star* of the 1st inst, furnished the following particulars of the finding of six bodies on the Chagres river, probably murdered for the purpose of robbery:

Our informant, Mr. Runnels, left Chagres on Wednesday evening. On Thursday morning, between Dos Hermanos and Pina Blanco, (on the Chagres river) he discovered the body of a man attached to a snag in the river. Mr. R. ordered his boatmen to approach the body, but after getting near enough to discover that the forehead of the deceased had been cleaved, as with a heavy knife or axe, the boatmen refusing to go along side of it. Proceeding up the river, the bodies of one, two, three and four other men, and one woman, were also discovered in the river, most of them having become attached, by their clothing, to snags. Mr. Runnels endeavored by all means in his power, to induce his boatmen to recover the body of the woman, for the purpose of giving it christian burial, but they utterly refused to approach it, being fearful of the "peste."

The bodies of most of the deceased were in a horrid condition. The entrals of several of them had been ripped open, as they were floating on the surface of the water, and the buzzards were feasting on their carcases.

On a bar just below Pina Blanco, Mr. R. discovered two newly made graves. Landing his boat, he made an examination of the ground, which he found to be much torn up, as though a severe struggle had been had. The head and hands of one of the deceased, were uncovered by earth, and from them it was readily ascertained that the body was that of a man. There were some natives present, but all they knew of the matter was that the other body was that of a woman.

After diligent and strict inquiry all along the river, Mr. K. could only learn, that a boat containing eight persons, returning Californinns, together with the boats crew, composed of Carthagenians, passed Palanquilla, on Tuesday evening, with the determination of stopping somewhere below on the river, during the night. Until the earth and sea shall give up their dead, and all shall stand before the great judgment seat, we doubt if the names of these unfortunate individuals—where they come from and where they were going—will never be known.

MAJOR HOBBIE.—This gentleman reached Panama before the sailing of the steamers just arrived. He visits the Isthmus under special instructions from the General Post Office Department, to inquire into the present condition of the mail service on the Isthmus. We trust that his efforts may succeed in doing away with the many grievous annoyances connected with the transit of the mails.

THE LOS ANGELES STAR,

WE PURPOSE publishing on the 7th of April next, at the city of Los Angeles, California, the first number of a weekly newspaper, to be called the LOS ANGELSE STAR, AND SOUTHERN PIONEER.

The importance which the southern portion of the State of California has already assumed, has rendered it necessary that there should be established in it a newspaper which shall represent the interests of the residents of that region. The tide of empire which has already flowed Westward until it has been stayed by the surges of the Pacific, is now turning in a Southerly direction, and the rich agricultural and mineral resources of Southern California are rapidly being developed by American enterprise.

The STAR will be devoted to the spread of American principles, the interests of our State generally, and particularly of its Southern portion. While we shall endeavor to maintain in its conduct an independence which should characterize the American press, we shall at the same time make our paper the supporter of the direct interests of the community in which it is published. We trust, however, to make it of interest not only to the immediate region of its publication, but to the State generally.

A prominent feature of the STAR will be that a large portion of the editorial and other matter will be printed in the Spanish language. As yet there is no paper in the State devoted in any degree to the interests of the native population of California, or printed in a language which they can read.

The editors of the STAR have been for many years connected with the Press, and one of them has resided in California nearly five years, and is intimately acquainted with her history and her people. Mail arrangements are nearly completed, by which our paper can be sent regularly to all parts of the State. We shall print a fair-sized sheet, and are in possession of the material to enable us to exhibit a neat typographical appearance. The terms of the STAR will be $10 per annum, payable in advance.

MAGNIFICENT WORK OF ART.

THE WAR BETWEEN THE UNITED STATES AND MEXICO. ILLUSTRATED!

Embracing Pictorial Drawings of all the principal conflicts by CARL NEBEL, author of "A Picturesque and Archæological Voyage in Mexico," with a description of each Battle, by GEO. WILKINS KENDALL, author of "The Texan Santa Fe Expedition," etc., published by Appleton & Co, New York.

Most of the 12 illustrations of this work were drawn on the spot by the Artist, and are strictly true to nature in the Ground, Landscape, Buildings, Coloring, and Costume. The best Lithographers, Colorists, and Printers were employed in its execution. The battles of no country have been illustrated in a richer, more faithful, or more costly style of lithography. This magnificent work of art, one of the finest known to modern times—will add richness to the most ornate drawing room, the library of gentlemen of taste, or the archives of public bodies and institutions.

It has just been received, and is for sale by
BURGESS, GILBERT & STILL,
mar5 at their Depot, on the Plaza, near Post Office.

SAN JOSE. SAN JOSE.

BERFORD & CO'S LINE OF EXPRESS MAIL STAGES,

HALL & CRANDALL, PROPRIETORS.

ARE now running every morning to San Jose, leaving Berford & Co's office, in the Plaza, at 8 o'clock, A. M. and the City Hotel, in San Jose, at 7 o'clock, A. M.

The reduced rate of fare puts it in the power of every one to visit the beautiful and healthful valley of Santa Clara. There is no more charming drive in California than that from San Francisco to San Jose, and as the line is divided rapidly through the oak openings and across the level plains under the skilful driving of Professors Dillon or Crandal, who drive their own coaches, he thinks the pleasure is united with business, and economy with pleasure.

The great advantage this line possesses over all others, is that the Stages were expressly prepared for the road, and, with a particular attention to SAFETY, while the drivers, who have served a long apprenticeship from New England to Mexico, make the QUICKEST TIME and NEVER MEET WITH ACCIDENTS, which are so likely to occur with the old fashioned stage coaches. n7tf BERFORD & CO.

SAN FRANCISCO. SAN JOSE.

NEW ARRANGEMENTS.

THE PROPRIETORS of the U S MAIL line of Stages have determined upon running their line *through* by land from San Francisco to San Jose, and are now running a DAILY Line to and from the Embarcadero, in connection with the steamers WM. ROBINSON and NEW STAR.

All their old friends and the traveling public will find this a much cheaper and more pleasant route than by land, at this season of the year.
